Anima Mundi

Known throughout time as the "world soul," Anima Mundi represents the intrinsic spirit that connects all living beings—a spirit we unconsciously carry with us as we move through the world.

With each spritz, experience a blend of smoky and floral. A balance of the masculine animus and feminine anima. A resinous marriage of the ethereal and the corporeal.

Why this course is different.

[Read the FAQs](#)

LOL Factor

We took extra time to make these videos entertaining by ① having Puno teach the material ② inserting as many jokes as possible and ③ making a song.

Self Paced, Forever Access

This is a self-paced online course and you'll have access to the videos forever.

People always ask us "how long does it take to finish?" It depends! Enjoy the flexibility to start & stop this course based on your life and goals. We'll provide lots of accountability resources along the way. Bonus: You get this course forever, like forever-ever. That means access to any future updates — because the internet always be changing!

1on1 Feedback

We have the Live Office Hours with Puno, TA grading, and 1on1 design feedback. This is not the kind of course where we teach you how we design, we truly look at what you want to do and will push you to find your design style.

Gamification

It's all about finishing! That's why we created this oh-so delightful world. Unlocking levels progressively has helped students keep focused; no need to get overwhelmed with everything you can learn. Plus, when you unlock levels — ohhhh, it's very satisfying. Annnd, there are 🏆 rewards you can redeem.

Community

We had no idea that this would be a big part, but it's probably the best thing about the course. It's like an instant group of digital friends that you can tap for feedback annnd geek out with.

As you level up, you'll be added to new channels. This is where you'll get to connect with fellow students and a whole crew of alumni.

Freelancing

If you touch the 🏆, you'll have the opportunity to submit your portfolio to be added to ilovecreatives. Squarespace clients will pay anywhere from \$500 - \$3,000+ for website redesigns. They are already poking around ilovecreatives and we're going to direct them right to you with the ilovecreatives seal of approval.

BEER & MALT BEVERAGE PACKAGING

The Socially Gastro Agency Puts A Positive Spin On The Trash Year Of 2020

by [Shawn Binder](#) on 02/03/2021 | 2 Minute Read

Maybe I'm a bit cynical, but I always assumed the taste of 2020 would be charred trash.

However, the much more optimistic folks at The Socially Gastro Agency have a much brighter take on the flavors of 2020; fruity beers with surprising tasting notes from Rekeye Brew & Co. Each of the brew variants has a rich color that is easily distinguishable. The actual beer type gets scrawled across the top of the can in modern and sleek typeface. The rest of the design is definitely more aspiration. Quotes beginning with platitudes get interrupted in an exciting way with a typeface that looks like it was scribbled on, resulting in a design that is both personal and approachable.

SPIRITS & LIQUOR PACKAGING

Enjoy The Here and Now With AQAVE

by [Shawn Binder](#) on 02/09/2021 | 4 Minute Read

AQAVE is a spirit sourced from maguey syrup, more commonly known as agave nectar. Used as a sweetener, but often distilled to make a variety of spirits, this sweet syrup is as satisfying as the branding designed in collaboration with TORO PINTO. Each bottle features a different, unique ombré tone of pink, teal, purple, and silver. The slogan emphasizes enjoying the "here and now". Each element of the logo places importance on tradition and history. Each symbol that makes up the composition of the label as a whole has a celestial and supernatural feel, drawing its roots from Mexican surrealism and spirituality.

FOOD PACKAGING

Don Tuch Is An 80s-Inspired Nostalgic Fast Food Concept

by [Shawn Binder](#) on 01/27/2021 | 3 Minute Read

Don Tuch will transport you back to the 80s, but in a good way, without all the booger sugar and big hair.

This fast food concept located in Mexico City utilizes a nostalgic typeface that feels reminiscent of the old Pizza Hut font. It's also fitting and on-point that the hero colors for this fast-food brand would be mustard yellow and ketchup red. No fast food concept is complete without a character, of course, and the cheerful lad showing a bit of midriff is the perfect, approachable hero to round out a fresh new concept that you feel like you've been enjoying yourself on for years.
